CRASH BLOCK 40 TESTED TO IWA 14

THE WORLDS MOST VERSATILE SURFACE MOUNT,
FREE STANDING CRASH RATED BLOCK STOPS A 7.5 TONNE TRUCK TRAVELLING AT 40mph/64km/h

SECURING TEMPORARY EVENTS FROM VEHICLE ATTACKS

As the growing threat of terrorist vehicle attacks, on temporary events, and the public realm, Governments are looking at measures to secure these events with normal concrete blocks. These standard concrete blocks would not stop a Vehicle attack, On impact, the block and vehicle would both become a weapon,

As the blocks would have no stopping power to stop the truck. Safetyflex Barriers have listened to Todays High Security Demands and their clients requirements to deliver the worlds first Free Standing Surface Mounted Crash Block.

With its latest innovative design there are **NO** requirements for a foundation, **NO** requirements to be pinned to the surface, just place directly on any finished surface to gain your instant perimeter security to IWA 14-1:2013

This product is ideal for permanent or temporary solutions and can be dressed in any cladding of choice. If different street furniture options are required then this could be designed as an instant bench or planter.
